

ORDINANCE 15/16-O-06

AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE ROCK RIVER WATER RECLAMATION DISTRICT

ARTICLE I

This Ordinance shall be effective upon passage.

ARTICLE II

A. Title 2, Article II, Section 7.B.1, entitled "Slug Discharges", the first paragraph shall be amended to read as follows:

1. District shall review the potential for slug discharges from SIUs and determine which, if any, SIUs need a plan or other action to control slug discharges. SIUs must be evaluated within one (1) year of being designated as an SIU. If a Slug Control Plan (SCP) is required, District will notify the user in writing and require submission of a plan within sixty (60) days of the date notification is sent. The plan shall contain as a minimum:

B. Title 2, Article II, Section 8.A.3, entitled "Cleaning Frequency" shall be amended to read as follows:

3. Grease interceptors shall be pumped out completely at a minimum frequency of once every one hundred twenty (120) days, or more frequently as needed to prevent carry over of oil and grease into the collection system. Under-the-sink grease traps shall be cleaned at a minimum frequency of once per month, or more often, as necessary, to prevent pass through of grease and other food solids to the collection system. Cleaning and maintenance shall include removal of materials from the tank walls, baffles, cross pipes, inlets and outlets. At no time shall the combined measured level of solids and grease layer exceed 25% of the holding capacity of the interceptor.

C. Title 2, Article II, Section 9, entitled "Wastewater Haulers" sections E, F, and J shall be amended to read as follows:

- E. Each load delivered to the wastewater treatment plant must have the District's wastewater hauler manifest properly filled out by the wastewater hauler as necessary and signed by the scale operator on duty.
- F. Each load of wastewater delivered to the wastewater treatment plant under a Non-Hazardous Waste Hauler Permit granted by the IEPA must have the District's wastewater hauler manifest and an Illinois Uniform Hazardous Waste Manifest

properly completed and signed by the generator and wastewater hauler. Both manifests must also be signed by the scale operator on duty. The District will keep copies of both manifests.

- J. In addition to remedies available to District set forth elsewhere in this Code, failure of a wastewater hauler to comply with the provisions of this Code or the permit requirements shall be grounds for revocation of the hauler's discharge permit by the District Director.

D. Title 2, Article III, entitled "DISCHARGE PERMITS" shall be amended so that the title reads as follows:

ARTICLE III. INDUSTRIAL DISCHARGE PERMITS

E. Title 2, Article III, Section 1.C., shall be revised, moved, and added as Title 2, Article IV, to read as follows:

ARTICLE IV - FOOD SERVICE ESTABLISHMENT (FSE) DISCHARGE PERMITS

SECTION 1. Requirement for Discharge Permits

- A. General Food Service Establishment (FSE) permits shall be issued by the District to those establishments required to install separators as set forth in Article II, Section 8.
- B. Any FSE required to obtain a discharge permit shall complete, and file with the District, a General Industrial/Commercial Wastewater Discharge Permit Application in a form to be prescribed and furnished by the District, as well as a fee to be determined by the Board.
- C. An FSE permit shall be issued for a specified time period, not to exceed three (3) years.
- D. An FSE permit is issued to a specific FSE and owner. An FSE permit shall not be assigned, transferred or sold to a new owner without the prior approval from the District.

F. Title 2, Article III, Section 5, entitled "Monitoring Facilities" section A.2. shall be amended to read as follows:

- 2. There shall be ample room, in and near, such monitoring facilities to allow accurate sampling and monitoring equipment to be installed and to prepare samples for analysis. Such facilities shall be accessible to authorized representatives of the District at all times upon presentation of suitable identification during the facility's normal operating hours.

G. Title 8, Article I, Section 5 shall be added as follows:

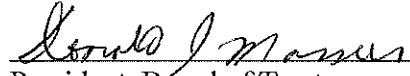

SECTION 5. Reconnection

No sewer connection disconnected hereunder shall be reconnected until the condition causing the disconnection has been corrected, the correction is of a permanent nature, and the correction has been documented and submitted to the District for review. The final decision shall be made by the Board of Trustees.

ARTICLE III

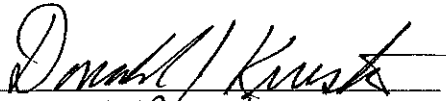

The validity of any Section, clause, sentence or provision of this Ordinance shall not affect the validity of any other part of this Ordinance which can be given effect without such invalid part(s).

Passed and adopted by the Board of Trustees of the Rock River Water Reclamation District, State of Illinois.

President, Board of Trustees

ATTEST:

Clerk

Dated: April 25, 2016
