2.8 Laws and Regulations

The bidder who is awarded the contract shall comply with all laws of the United States of America, the State of Illinois, and all lawful regulations of the Rock River Water Reclamation District and the respective cities and villages in which the professional service, material or equipment supplied is to be performed respecting labor and compensation and all other statutes, ordinances, rules and regulations applicable and having the force of the law.

A. Illinois Regulations

- 1. Prevailing Wage.** If applicable, the undersigned, as Bidder, declares he will comply with prevailing wages in accordance with the Illinois Department of Labor Standards. The State of Illinois requires contractors and subcontractors on public works projects (including Rock River Water Reclamation District) to submit certified payroll records on a monthly basis, along with a statement affirming that such records are true and accurate, that the wages paid to each worker are not less than the required prevailing rate and that the contractor is aware that filing false records is a Class B Misdemeanor.

The certified payroll records must include the name, address, telephone number, social security number, job classification, hourly wages paid in each pay period, the number of hours worked each day, and the starting and ending time of work each day, for every worker employed on the project. Any contractor who fails to submit a certified payroll or knowingly files a false certified payroll is guilty of a Class B Misdemeanor. Certified payroll reports shall be submitted on standard IDOT forms.

- 2. Public Act 83-1472.** Article 2 of Public Act 83-1472 provides that Illinois residents be employed on Illinois public works projects, provided there has been a period of excessive unemployment (5%) in the State of Illinois as defined in the Act; and, further, that Illinois workers are available and capable of performing the particular type of work involved.

2.9 Terms

A. Payments to the Successful Bidder. If the District receives an acceptable invoice for conforming materials or service prior to the fifth day of the month, the District shall issue payment before the fifth day of the succeeding month. If received on or after the fifth day of the month, payment will be issued the following month.

B. Default. In case of default, the District will procure the materials or service described in this Invitation to Bid from other sources. The District shall hold the defaulting successful bidder responsible for any excess cost incurred. The defaulting successful

bidder shall make such payment no more than 60 calendar days after the District notifies him, in writing, of such an occurrence.

C. Brand Substitutions. Bids will be considered for items complying substantially with specifications, provided deviations to the specifications are stated and items are described in detail. When offering alternate products, it is the responsibility of the bidder to outline alternatives and provide performance and technical data for evaluation. The Rock River Water Reclamation District will be the sole judge of whether such alternates are equivalent to the items specified. The District reserves the right to waive immaterial variations in the specifications.

D. Use of District Name Prohibited. In the absence of the District's written permission, the successful bidder shall not use the District's name in any form or medium of public advertising.

2.10 Quantities Estimated Only

The estimate of quantities of the various items of work and materials, as set forth in the bid form, is approximate only and is given solely to be used as a uniform basis for the comparison of bids. The quantities actually required to complete the contract work may be less or more than so estimated, and if awarded a contract for the work specified, the Contractor further agrees that he will not make any claim for damages or for loss of profits or for an extension of time because of a difference between the quantities of the various classes of work assumed for comparison of bids and quantities of work performed.

2.11 Investigation

It shall be the responsibility of the bidder to make any and all investigations necessary to become thoroughly informed of what is required and specified in the bid. No plea of ignorance by the bidder of conditions that exist or that may hereafter exist as a result of failure or omission on the part of the bidder to make necessary examinations and investigations will be accepted on a basis for varying the requirements of the District or the compensation of the bidder.

2.12 Addenda

If the District issues written addenda, such addenda shall become part of the contract documents. The District will distribute the addenda:

- A.** Not less than 3 working days prior to the bid opening date;

In the absence of the prospective bidder's written notice of his email address or facsimile number, the District will provide addenda via mail. A bidder that does not receive the District's addenda, and who has previously submitted a bid, shall not be relieved from any obligation in the bid he submitted.

2.13 Contract Form

No more than 10 business days following the contract award, the successful bidder shall submit a completed Contract Form to the District's Business Manager. The Contract Form is part of this Invitation to Bid. By their mutual agreement, the successful bidder and District may supplement this contract form or replace it with an alternative document. If the successful bidder fails to complete the agreed upon Contract Form within the specified time, he shall be in material default.

2.14 Contract Termination

A. Bidder's Unacceptable Performance. If the successful bidder fails to perform services or provide materials in conformity with this Invitation to Bid, the District shall notify him in writing. If the successful bidder fails to correct the performance deficiency to the District's satisfaction within five working days after he receives the District's notice, he shall be in default. If the same performance deficiency recurs despite the District's notification and the successful bidder's temporary correction, the successful bidder shall likewise be in default. The District may, at its sole discretion, terminate the **Pavement Repairs – Large Patches** contract with the defaulting successful bidder, and remedy the matter under provisions set forth in Section 2.9 of this Invitation to Bid.

B. District's Action Following Contract Termination. If the contract is terminated, the District may, at its sole option:

1. request new bids or
2. designate the next-low bidder provided that said next-low bidder agrees to his original bid terms.

The District may repeat this option until it obtains an acceptable **Pavement Repairs – Large Patches** contract.

2.15 “No Bid” Response Form

In the event you elect not to bid, please fill out and return the attached “No Bid” form.

2.16 Indemnification Clause

Successful respondent/contractor shall protect, indemnify, hold and save harmless and defend the District, its officers, officials, employees, volunteers, and agents against any and all claims, costs, causes, actions and expenses, including but not limited to attorney's fees incurred by reason of a lawsuit or claim for compensation arising in favor of any person, including the employees, officers, independent contractors, or subcontractors of the successful respondent/ contractor or District, on account of personal injuries or death, or damages to property occurring, growing out of, incident to, or resulting directly or indirectly from the performance by the successful respondent/contractor or subcontractor, whether such loss, damage, injury, or liability is contributed to by the negligence of the District or by premises themselves or any equipment thereon whether latent or patent, or from other causes whatsoever, except that the successful respondent/contractor shall have no liability for damages or the costs incident thereto caused by the sole negligence of the District.

The indemnification shall not be limited by a limitation on amount or type of damages payable by or for the successful respondent/contractor or its subcontractor under any employee benefits act including, but not limited, to the Workers' Compensation Act.

No inspection by the District, its employees, or agents shall be deemed a waiver by the District of full compliance with the requirements of the Contract. This indemnification shall not be limited by the required minimum insurance coverage in the Contract.

2.17 Force Majeure

The obligations of either the District or the successful bidder shall be suspended during the time as such party is prevented from complying therewith in whole or in part because of any cause, except financial, beyond the reasonable control of such party. In the event of either the District or the successful bidder being rendered unable wholly or in part by force majeure to carry out its obligations under the **Pavement Repairs - Large Patches** contract, other than to make payments due, it is agreed that on such party giving notice and full particulars of such force majeure in writing to the other party as soon as possible after the occurrence of the cause relied on, then the obligations of the parties insofar as they are affected by such force majeure shall be suspended during the continuance of any inability so caused but for no longer period, and such cause shall as far as possible be remedied with all reasonable dispatch.

2.18 Insurance

A. The successful respondent/contractor shall, for the duration of the contract, maintain the following:

General Liability: \$1,000,000 combined single limit per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

Auto Liability: \$1,000,000 combined single limit per accident for bodily injury and property damage including coverage for owned, hired or non-owned vehicles, as applicable.

Workers' Compensation and Employers' Liability: Workers' Compensation limits as required by statute and Employers' Liability limits of \$500,000 per accident and \$500,000 per disease.

Umbrella: \$2,000,000 per occurrence/aggregate.

The policies shall contain, or be endorsed to afford Contractual Liability coverages for the following provisions in the General Liability and Automobile Liability coverages:

1. The District, its officers, officials, employees, and volunteers shall be covered as additional insured as respects liability arising out of activities performed by or on insured's general supervision of the successful respondent/contractor, products and completed operations of the successful respondent/contractor, premises owned, occupied or used by the successful respondent/contractor, or automobiles owned, leased, hired, or borrowed by the successful respondent/contractor. The coverage shall contain no special limitations on the scope of protection afforded to the District, its officers, officials, employees, volunteers, or agents.

2. The successful respondent's/contractor's insurance coverage shall be primary insurance as respects the District, its officers, officials, employees, volunteers, and

agents. Any insurance or self-insurance maintained by the District, its officers, officials, employees, volunteers, or agents shall be in excess of the successful respondent's/contractor's insurance and shall not contribute with it.

3. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the District, its officers, officials, employees, volunteers, or agents.

The successful respondent's/contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

B. Proof of Insurance – Certificate of Insurance. No more than 10 calendar days subsequent to the District's issuance of an award letter and no later than 30 days before commencement to work, the successful respondent/contractor shall provide documentation including a Certificate of Insurance and primary, non-contributory additional insured endorsements for general and auto liability to prove that it has obtained all required insurance and bonds. The District shall be the sole judge as to the acceptability of any such proof.

C. Correction of Successful Bidder's Insurance Deficiencies. If the District determines that the successful bidder's insurance or documentation does not conform to these specifications, the District shall inform said bidder of the non-conformity. If said bidder fails to provide conforming insurance or documentation within five calendar days of the District's notice, he shall be in default.

D. Best's Ratings.

1. **Alphabetical Rating.** For purposes of this Request for Bids, "insurer" shall mean any surety, insurance carrier, or other organization which proposes to provide an insurance policy or bond for the successful respondent/contractor. No insurer or surety rated lower than "A-," **Excellent**, in the current Best's Key Rating Guide shall be acceptable to the District.

2. **Financial Size Rating.** Provided an insurer's alphabetical rating is satisfactory, the District will examine said insurer's financial size rating.

a) If Best classifies the insurer XII or larger, said insurer shall be acceptable to the District.

b) If Best classifies the insurer as smaller than XII, but larger than VI, said insurer shall be submitted to the District's Business Manager and/or the District's insurance consultant for review.

Financial Size ratings less than VII are not acceptable and will disqualify the respondent/contractor.

E. Suitability of Insurance. The District shall be the sole judge of whether an insurer's rating is satisfactory. The District's decision shall be final and the District's bidding procedures contain no appeal provision.

2.19 Responsive/Responsible Bidder

A. Evaluation of Responsiveness. The responsiveness of bidders will be judged on the basis of the completeness of the bid submitted. The work required under this contract involves many different sites, including District property. The amount of work at any one site can vary upwards from 100 square yards. The work shall be done in accordance with the applicable sections of the *General Provisions and Technical Specifications for Sanitary Sewer Construction* as published by the Rock River Water Reclamation District and the Standard Specifications for Road and Bridge Construction as published by the Illinois Department of Transportation. The work shall be performed in compliance with current OSHA standards and rules.

B. Work Included

The Contractor shall furnish all labor, superintendence, materials, plant, power, light, heat, fuel, water, tools, appliances, equipment, supplies, traffic control services and other means necessary or proper for performing and completing the work.

All structures and property that may be damaged or disturbed during performance of the work shall be repaired or restored by the Contractor.

Only equipment of established reputation and proven efficiency shall be used. The Contractor shall be solely responsible for the adequacy of his plant and equipment.

C. Contractor to Check Data

The Contractor shall verify all Specifications or other data received from the District, and shall notify District of all errors, omissions, conflicts, and discrepancies found therein. Failure to discover or correct errors, conflicts or discrepancies shall not relieve the

Contractor of full responsibility for unsatisfactory work resulting there from nor from rectifying such conditions at his own expense. Contractor will not be allowed to take advantage of any errors or omissions, as full instructions will be furnished by the District, should such errors or omissions be discovered. The Contractor shall assume all responsibility for the making of estimates of the size, kind and quality of materials and equipment included in work to be done under the Contract.

D. Intent

Work not specified in the Specifications, but involved in carrying out their intent or in the complete and proper execution of the work, is required and shall be performed by the Contractor as though it were specifically delineated or described.

The apparent silence of the Specifications as to any detail, or the apparent omission from them of a detailed description concerning any work to be done, shall be regarded as meaning that only the best general practice is to prevail and that only workmanship of the best quality is to be used; interpretation of these Specifications shall be made upon that basis.

If conflicts, errors or discrepancies arise between or among the Contract Documents, said documents shall be consulted in the order shown: Addenda, Contract, Supplementary Drawings, Detailed Specifications, General Provisions, Plans, and the language in the first such document in which language regarding the conflict, error or discrepancy occurs shall control.

The Contractor shall complete his work at the site within seven (7) calendar days of issuance of the Notice to Proceed. Liquidated damages of \$100/day for failure to complete the work on time shall be assessed by the District and deducted from Contractor's invoice prior to payment. Should Contractor believe completion within seven (7) calendar days is not possible due to weather or other causes beyond his/her control, a time extension may be granted on a case-by-case basis. The District must be notified in a timely manner and the District shall be the sole judge whether an extension of time is required. The Contractor shall be responsible for maintaining the patch(s) until such time that the

permanent repair is complete. This shall include any necessary traffic control devices and the liability for any potential third party damage claims that may occur.

The District's procurement procedures do not allow for appeal.

3.2 Traffic Control

The Contractor shall furnish and maintain all barriers, barricades, lights and traffic signals necessary for the control of traffic and protection of the public. The Contractor shall follow all requirements of the District, municipality, county, township and State of Illinois standard specifications. From the date of the Notice to Proceed, until the work is complete, Contractor shall be responsible for dust control. If, in the opinion of the District, dust control work is required, Contractor will be notified by telephone. Contractor shall complete dust control work within 24 hours.
