

Schedule P – Erosion Control

This schedule must be submitted if construction activity involves: (a) a construction site of one (1) acre or more, or (b) sewers or forcemains greater than 15 inches in diameter, or (c) sewer extensions, service connections or forcemains of 2000 feet or greater, or (d) a lift station.

1. Name of Project

The name of the project must be the same as the project name indicated on WPC-PS-1.

2. Total area disturbed by excavation

This may be in square feet or acres and includes the entirety of the permanent and temporary construction easement areas for sewer extensions or subdivision area. For service connections this would be the proposed disturbed acreage of the lot or parcel for the building and site work.

3. Summary of erosion control practices

Summarize erosion control practices in appropriate units of measurement. Indicate unit of measurement if not in square feet.

4. Plan of erosion control measures

Show the measures on the detailed plans or attach a copy of the proposed SWPPP.

5. Drainage area

Indicate the drainage area, including the site, involved and the unit of measurement.

6. Slope categories

Area may be indicated in acres or square feet. Indicate unit if not in acres.

For RRWRD Use:
 LOG # _____
 DATE: _____

**ROCK RIVER WATER RECLAMATION DISTRICT
 ENGINEERING DEPT.
 3501 Kishwaukee Street
 Rockford, Illinois 61109
 Schedule P - Erosion Control**

1. Name of Project _____
2. Total area disturbed by excavation: _____
3. Summary of erosion control practices: _____

		Area Controlled (Sq. Ft.)	Permanent (P) or Temporary (T)
Vegetative Control	_____ (Sq. Feet)	_____	_____
Interceptor Ditches	_____ (Feet)	_____	_____
Berms	_____ (Feet)	_____	_____
Sediment	_____ (Cu. Yd.)	_____	_____
Debris Basins	_____ (Cu. Ft.)	_____	_____
Desilting Basins	_____ (Cu. Ft.)	_____	_____
Silt Traps	_____ (Cu. Ft.)	_____	_____
Mulching and Matting	_____ (Cu. Ft./Sq. Ft.)	_____	_____
Other	_____ (Indicate)	_____	_____

4. Attach topographical or plan maps of construction area and indicate erosion control practices.
5. Drainage area (above and including construction site) _____
6. Slope categories of construction site:

	Area (acres)	Disposition of collected sediment
6.1 0 - 2% slope	_____	_____
6.2 2 - 4% slope	_____	_____
6.3 4 - 6% slope	_____	_____
6.4 6% slope or greater	_____	_____

Please check one below.

_____ Erosion control practices identified above will be constructed in accordance with Illinois Urban Manual, 2000 edition.

OR

_____ Plans or specifications for the above referenced erosion control practices are attached.
